

GURUG

The Yellowest Frog on Solana

Handsome, but never boring.

Be Your Own Legend.

WHITEPAPER · VERSION 1.0 · 2026

1. Introduction

GURUG is a community-driven meme token built on the Solana blockchain. GURUG combines humor, creativity, community culture, and a recognizable character to create a meme ecosystem that people can participate in, create with, and grow together.

GURUG is a character.

GURUG is a community.

GURUG is a journey.

2. The GURUG Philosophy

GURUG represents individuality, humor, creativity, and the freedom to go your own way. The character is intentionally simple and recognizable, while its personality can change endlessly: happy, angry, confused, jealous, excited, ridiculous.

GURUG can be anything.

Handsome, but never boring.

Be Your Own Legend.

3. Why GURUG?

The memecoin ecosystem is built on culture, attention, creativity, and community. GURUG aims to create a recognizable identity rather than simply launching another token.

- Memes
- Character-driven storytelling
- Community participation
- Creative content
- Social culture
- Long-term liquidity development
- Exchange expansion

4. Token Information

Name: GURUG

Symbol: GURUG

Blockchain: Solana

Max Supply: 999.9M

Contract Address: G8zUWL2mz8DJ16BrfDJPCo7657kJU3Y5NcrGZ6jtpBm5

5. Liquidity

Liquidity is one of the core priorities of the GURUG project.

Target: \$100,000 Liquidity

This milestone represents an important stage in the development of the GURUG ecosystem. As liquidity grows, the project intends to pursue deeper and more stable market conditions while preparing for broader exchange accessibility.

6. Roadmap

2026 — The Beginning

- Reach \$100K liquidity
- CoinGecko listing
- CoinMarketCap listing
- Community expansion
- Meme and content ecosystem development

2027 — Building the Swamp

- Work with experienced market-making partners
- Establish deeper and more stable liquidity
- Expand the GURUG community
- Develop strategic partnerships
- Begin CEX expansion efforts

Future — The Legend

Potential future development may include expanded CEX presence, community campaigns, merchandise, digital collectibles, character-based content, collaborations, community events, and ecosystem experiments.

The roadmap is intentionally flexible. The swamp decides where we go next.

7. Founding 100

GURUG plans to establish a group of 100 early X creators and influencers who will help grow the project together.

Eligibility: creators with 5,000+ X followers and an active, genuine community may apply.

When GURUG reaches \$100K liquidity, a designated percentage of GURUG tokens will be distributed among eligible Founding 100 participants. Full eligibility requirements, allocation methodology, distribution timing, and other conditions will be announced separately through the official GURUG Telegram community.

8. Community

GURUG is built around participation. The community is not simply an audience. The community is part of the project.

Everyone can contribute: create memes, share GURUG, create artwork, participate in discussions, build community initiatives, and introduce GURUG to new people.

The strongest meme communities are created together.

10. Disclaimer

GURUG is a meme token created for entertainment, community participation, and cultural experimentation.

Nothing contained in this document should be interpreted as financial, investment, legal, or other professional advice. Cryptocurrency markets are highly volatile and participation involves significant risk. Always conduct your own research before participating.

11. Final Words

GURUG started with a simple character.

But a character can become a story.

A story can become a community.

And a community can become a legend.

Handsome, but never boring.

Be Your Own Legend.
