

GURUG

The Yellowest Frog on Solana

Handsome, but never boring.

Built on Culture. Driven by Community.

WHITEPAPER · VERSION 1.1 · 2026

1. Project Overview

GURUG is a community-driven meme token built on the Solana blockchain, with a focus on culture, creativity, participation, and long-term community growth.

The project is centered around a distinctive yellow frog character that provides a recognizable identity for a broader social and creative ecosystem.

GURUG is designed to be more than a token people simply hold. It is intended to be a participatory project in which holders, creators, and community members can contribute to the culture surrounding the brand.

A memorable character. A participatory culture. A community-driven project.

2. Vision

The long-term vision of GURUG is to establish a recognizable and enduring meme culture on Solana.

Memecoins are often driven by attention, but lasting communities are built through identity, shared culture, creativity, and participation.

GURUG aims to develop these elements together.

The project does not attempt to predict exactly what the community will become. Instead, it seeks to create the foundation for a culture that can evolve organically as more people participate.

3. The GURUG Identity

GURUG is built around a simple, recognizable character.

Its visual identity is intentionally distinctive, while its personality remains flexible enough to support a wide range of stories, situations, artwork, and community-created content.

Humor is an important part of the GURUG identity, but it is not the entire identity.

The character provides a common visual language through which the community can create, communicate, and participate.

Handsome, but never boring.

The phrase reflects the character's personality rather than serving as a financial promise or investment proposition.

4. Culture & Community

GURUG is built around participation.

The community is not simply an audience observing a project from the outside. Community members can contribute directly to its culture through:

- Memes and creative content
- Artwork and visual storytelling
- X campaigns and social activity
- Community discussions
- Collaborations
- Grassroots initiatives

Built on Culture. Driven by Community.

5. Token Information

Item	Information
Name	GURUG
Symbol	GURUG
Blockchain	Solana
Max Supply	999.9M
Contract Address	G8zUWL2mz8DJ16BrfDJPCo7657kJU3Y5NcrGZ6jtpBm5

6. Liquidity & Market Development

Sustainable liquidity is an important part of GURUG's development strategy.

Initial Liquidity Milestone: \$100,000

Reaching this milestone is intended to mark an important stage in the project's market development.

As liquidity develops, GURUG intends to pursue broader market accessibility and more stable trading conditions.

The project will prioritize responsible and transparent market development rather than short-term promotional activity.

7. Roadmap

Phase I — Foundation

- Establish the GURUG brand and visual identity

- Build the initial community
- Develop a consistent content and meme culture
- Establish and strengthen market liquidity
- Pursue CoinGecko and CoinMarketCap listings
- Reach the initial \$100K liquidity milestone

Phase II — Expansion

Beginning in January 2027, the project intends to expand its market and community presence.

- Collaboration with experienced market-making professionals
- Development of deeper and more stable liquidity
- Expansion of the GURUG creator and community network
- Strategic partnerships and collaborations
- Initiation of CEX expansion efforts

Phase III — Long-Term Development

GURUG may explore broader CEX accessibility, community-led campaigns, brand collaborations, merchandise, digital collectibles, character-driven content, community events, and ecosystem experiments.

These possibilities are directional rather than guaranteed commitments and will depend on community development, market conditions, resources, and the evolution of the project.

8. Founding 100

The Founding 100 is an initiative intended to bring together 100 early X creators and influencers who want to participate in the development of GURUG.

Eligibility

Creators with 5,000+ X followers and an active, genuine audience may apply. Selection will consider the quality and authenticity of the creator's community and their ability to contribute meaningfully to the GURUG ecosystem.

Participation

Founding 100 members may contribute through X content, memes, creative campaigns, community engagement, storytelling, and collaboration with other GURUG creators.

Reward

When GURUG reaches the \$100K liquidity milestone, a designated percentage of GURUG tokens is planned to be allocated among eligible Founding 100 participants. Detailed eligibility criteria, allocation methodology, distribution timing, and other conditions will be announced separately through the official GURUG Telegram community.

9. Transparency & Development Principles

GURUG intends to develop through a gradual and transparent process.

The project will communicate major milestones, changes, and developments through its official channels.

As the project evolves, additional documentation may be added covering Tokenomics, Liquidity,

Contract and Security information, Exchange listings, Partnerships, Community initiatives, and Project updates.

The roadmap may evolve as circumstances change. This flexibility is intentional: the project should respond to its community and to the broader market rather than being constrained by an inflexible timetable.

11. Disclaimer

GURUG is a meme token created for entertainment, community participation, and cultural experimentation.

Nothing in this document constitutes financial, investment, legal, tax, or other professional advice.

Cryptocurrency markets are highly volatile and participation involves significant risk. Nothing in this document should be interpreted as a promise, guarantee, or prediction of future value, returns, listings, or market performance.

Readers should conduct their own research and consider their own circumstances before participating.

12. Closing Statement

GURUG begins with a character, but its direction is shaped by the people who choose to participate.

Build something recognizable.

Build something creative.

Build something together.

Handsome, but never boring.

Built on Culture. Driven by Community.
